### A Hat That Don't Boost.

M. R. Martin, our worthy superintendent of the water and light plant, is a booster, and like other young men of our Boosters Club, wears a booster hat, which in color, as Henry Ward Beecher said, is something like a hoop-skirt or an old hair trunk. On Tuesday evening last, Hon. J. W. Boyd, of St. Joseph, was here on legal business and accosted Mr. Martin on the corner near the Home Phone and asked where Mr. Dungan's office was and Mortie showed him. A little later he passed Mr. Boyd on the street, both going east, when the latter quickened his step and caught up with Mortie, remarking that he did not want to be inquisitive or meddle with anybody's business, but he would like to know what kind of a d-d hat that was he was wearing.

—Charley Kock spent Sunday with his pa and ma, who reside at Sedalia.  
—Friday of last week, J. H. Keeves & Co., delivered a Cadillac "30" tonneau automobile to Jim Lasell, of near Maitland. The day before, John Keeves, in company with Mr. Lasell and Will Curry, drove the machine from Omaha, leaving there at noon and reaching Mr. Lasell's home at 5:30. Stops were made at Glenwood, Tabor and Hamburg, Iowa, Rock Port and Corning, Mo. The machine ran perfectly and no trouble of any kind was experienced. The day was hot, dusty and very windy and Mr. Keeves drove with the windshield up and against the wind. The machine had not been equipped with a speedometer, but the distance was something over a hundred miles.

—In a letter to a friend here, our old friend, W. A. Springer, of West Plains, Mo., who is engaged in the grocery business, says that his March trade was the best of any year since he had been in business. Fruit prospects in that locality only fair, the peaches being badly killed on low ground, but all right on high land; cherries and strawberries considerably hurt by hail; also they had a small twist in the west part of town and all small buildings in its path were destroyed and some good residence property damaged, but no loss of life. We note also that a new creamery is to start. Said a Republican mayor was elected this spring and a tie count and that they were having lots of trouble about the minor offices with a tie council.

## THEY GRIND EXCEEDING FINE

(Continued from First Page.)  
apples, has demanded its \$300 back, the bank refusing on the ground that the money had been garnished by Rundle. It has been in court some time, and has again been continued.

The case of the state vs. Thomas Tolliver was called Tuesday, and the defense secured a continuance to the August term. The witnesses for both plaintiff and defense entered into recognizance for their appearance.

Albert W. Cotton vs. Alonzo Meadows; this was a suit for commission due on a land sale, and the jury gave a verdict in favor of the plaintiff for \$350.

J. A. Schmutte vs. Thomas Quinby. This came up on an appeal from Squire Randall's justice court at Craig, in which the plaintiff claimed \$40 for services in assisting in finding of a purchaser for certain farm lands. The jury found for the plaintiff for \$40.

The case of the Nodaway Drainage District, No. 1, vs. the Illinois Surety Co., is a suit on bond. The defendants having gone on the bond of Gilligan & Co., contractors for the digging of the ditch, and failing to make good, suit was brought. The case is being tried as we go to press.

Court adjourned Thursday afternoon, owing to the court having cases set for hearing at Maryville.

This leaves several cases undisposed of, but the docket was well relieved of cases.

The case of the State vs. John F. Miller, on change of venue, and those of Felix Gambrel, Thomas Hines, S. S. Nauman and J. P. Hines, in which the judge disqualified himself, were still undisposed of by reason of no judge having been secured to hear the cases.

—The announcement of Charles N. Dobyns, of Lincoln township, for Recorder of Deeds, appears in this issue. Charlie is not only a good Republican but is also thoroughly qualified for the office he seeks; he is a splendid penman of first class habits and possesses the requisites in every way to make a first class officer. While he is engaged in the newspaper business, he assures us he will in no way use his paper to further his claims. This alone proves him to be "square," and the people will find him dealing that way throughout his campaign.

## I Make A Friend With Every Suit

One reason why I have my clothes made by The Royal Tailors is that they are expert

friend-makers as well as clothes-makers. When they cut a suit they cement a good will; my customers are so elated with Royal clothes that they talk about them—and me—all over town.

The Royal Tailors are not spending a fortune in advertising without a foundation to stand on. They are giving the best dollar for dollar satisfaction in the country.

## Rural School Notes.

(BY GEO. W. BEAVIS, CO. SUPR.)  
Miss Frankie Potter closed a very successful term of school at New Liberty last week. They bought \$30 worth of books, seven large pictures, new window shades, an organ stool, and have several dollars left from proceeds of a box supper. It pays to get a teacher that can do things.

Glendale school has made much progress the past year; they set out 12 trees on Arbor day, classified the school, earned and spent \$14 for books, closed the school in good shape and Miss Butrick deserves much praise for what she has done at Glendale.

Walker school made a good selection in re-employing Mr. McKown as teacher for another year at an increase in salary. He always makes good.

Miss Weller, one of our best teachers, has been employed for another year at Kelso. This school has made good progress under her leadership.

Miss Mayne Greene is to be congratulated for her excellent work at Woods the past year. She has added much to the school and her efforts should be rewarded by a handsome increase of salary.

Miss Cora Noelsch closed her school at Union last week. For interest, attendance, good work and progress all along the line, this school ranks among the first. Mr. Emberson, university inspector of rural schools, pays this school and teacher a very high compliment.

I still have calls for EXCELLENT teachers for the coming year. Are you one?

Dr. S. M. Jordon, of the University, gave an excellent talk at Mound City, last Friday afternoon, on Agriculture. We desire to thank Supt. Street and his faculty for the co-operation shown. Not so many farmers out, but the school pupils from the sixth grade up were there and made an appreciative audience. The informal meeting at which the farmers asked questions by Dr. Jordon was very interesting. The Mound City schools are always loyal to every movement that means progress. The work in this school was highly complimented by both Prof. Elliff and Jordon, who visited here last week.

Each pupil who graduates from the eighth grade of the rural schools, will be given a free ticket to the Oregon chautauqua on Educational day. The High School Entrance Certificates will be given on that day. We hope each graduate will be present, as we want a picture taken of the entire group. Don't forget to come. The exact date will be given in due time. Leone M. Johnson won the free scholarship offered by Maitland High School.

Ruth Fedder won that offered by Craig High School. We hope these young people will attend high school next year and continue the good work already begun.

Teachers should make full reports to clerks and county superintendent. The Bigelow schools closed on last Friday and the graduating exercises held in the evening were largely attended and appreciated by all. Prof. Jordon delivered the class address: Hadden's Musical company furnished excellent music. Miss Vandeventer won high compliments by her excellent readings. The three graduates, Misses Dodson, Knowles and Mr. Adams each presented the part assigned in a very creditable manner. The school has been a success and the exercises were highly successful.

I hope a large number of teachers will attend summer schools this year. You can't afford to miss them.

### Sunday School Convention.

The Sunday school convention of Nodaway township held at Nickell's Grove church, Sunday afternoon, May 1, was attended to the utmost seating capacity of the church, by a very attentive and appreciative audience.

Chas. F. Hornecker serving in the capacity of president for his first time, was on hand and ably conducted the convention.

After the devotional hour, lead by Beryl Kunkel, the business of the convention was transacted.

The Brethren, Rev. Henry Bruns, and Rev. G. W. Weidemer, were present and presented the subjects given to them.

Rev. B. H. Dawson, who had been appointed in the stead of Rev. James Walton, was there and presented the subject given to Brother Walton. Rev. C. D. Phend could not be present, and owing to the lateness of the hour, the subject given to him was not presented.

Miss Mattie Dreher and Miss Mollie Stadler each gave a recitation. The next convention will be held in the Woodville church in the fall.

—Call in and let us show you how to grain your floors, rooms, fix your furniture all new. It costs you nothing to learn. HINDE DRUG CO.  
—Dr. J. W. McClanahan has located in Forest City, where he has purchased the office of Dr. J. F. Chandler, who will remove to South Dakota. Calls answered promptly, day or night. Both Phones.

## April Weather.

Extreme weather conditions here during April, demonstrated that the month was an extremely fickle one, and up to the middle of the month there was every indication of an abundant fruit crop, but she got to coqueting with December and the result was we had traces of snow on the 16th and 17th, and the needle went down and ranged from 27 to 30 during the entire week. This condition prevailed generally throughout the country, only much worse in some localities, especially through the Lake regions and the far south—the cotton crop being severely injured. The states affected the worse were Kansas, Missouri, Nebraska, Ohio, Kentucky, Illinois, Iowa, Michigan, Indiana and Wisconsin.

This storm will no doubt be remembered as perhaps the most disastrous that has swept the country in years. In many districts it amounted to a calamity, and its effects, shortage of crops and consequent higher prices will likely be felt all summer. Costa Rican cities were visited by an earthquake on the 15th, that ruined many towns and destroyed many lives.

Halley's comet was the attraction for the month, coming to view in the eastern horizon, near the sun, at 4:25 a. m. on the morning of the 8th; on May 19 it will appear in the evening sky.

The extremes for the month of April, 1909, were:

	Max.	Min.
21.....	84	16.....
27.....	83	17.....
28.....	91	18.....
29.....	91	19.....
30.....	80	23.....

Mean Max., 68.  
Mean Min., 41.  
Mean, 54.

Rainfall, 1.42; greatest in 24 hours, .90 of an inch, which fell on the 14th. Traces of snow on the 16th and 17th; ice formed on the 16th, 17th, 18th and 23d.

Thus far in the year we have had during the four months but 2.53 of inches of rain, against 7.19 in the same time of 1909, while the normal for the four months is 8.03 inches—thus we are short 5 1/2 inches of the normal rainfall.

It will also be noted that the mean for the month of 1910 was 54 degrees, which is just one degree warmer than the normal, which is 53; the mean maximum for 1910 was 41, which was 5 degrees warmer than in 1909 and the mean maximum was 7 degrees warmer than in 1909. Thus it will be seen that April, 1910, was really much warmer than in 1909. In 1909 the warmest days were 82 degrees on the 17th and 26th, while those of 1910 was 91 degrees on the 28th and 29th; and the mean was 48—the third coldest April.

We have had colder Aprils than that of 1910. The coldest ever known here was in 1859 when the highest range was 67 degrees and the lowest 8 degrees, and the mean was 40. The second coldest April was in 1907; the warmest day was 80 on the 23d and the coldest 21 degrees on the 13th and 21st, and the mean for the month was 44 degrees.

### GREAT LAND SALE!

VAST TRACT OF HIGH LAND IN THE ROUND LAKE COUNTRY, WISCONSIN, OPENED TO SETTLEMENT BY THE AMERICAN IMMIGRATION CO., OF CHIPPewa FALLS, WISCONSIN.

### SALE AROUSES WIDESPREAD INTEREST

The 1000 men have at last released for settlement their vast tracts of rich Wisconsin land, a total of over 500,000 acres. The very best of this land, comprising 150,000 acres in the famous Round Lake Country, in Sawyer County, Wis., is now being cut up into farms and sold at from \$5.50 to \$20 per acre on ten years' time. The low prices and easy terms on which this rich land may be secured challenges the attention of the owner of high-priced land and the tenant farmer as well. The American Immigration Company's great development plans are rapidly bearing fruit and new towns are being laid out, new railroads are coming, and settlers are busily building homes and getting the land under cultivation. These lands are in the very heart of the state's richest dairy section. Clover grows in such abundance that this region is known as the great country for stock raising. The land is capable of producing big crops of grain, fruit and vegetables. On much of this land there is enough timber to pay for it and furnish all the lumber for the necessary farm buildings. It is a country of abundant rainfall and the purest of water. Nine out of every ten who visit the American Immigration Company's land become purchasers. The company refunds railroad fare to purchasers.

Send for free maps, descriptive book, and all necessary information at once to the local representative of the company and get your pick of the land.

Oregon, : Missouri.

—E. W. Heffebower and wife, of Osceola, Polk county, Nebraska, are visiting here, the guests of Mr. Matt Gelvin and family, and Mrs. J. M. Crider and family and other relatives. Mr. Gelvin is a brother, and Mrs. Crider is a sister of Mrs. Heffebower. They have been absent from home for several months, and are being detained here until Mrs. H. is fully recovered and able to travel, as she is now convalescing from a severe attack of pneumonia and pleurisy. Mr. Heffebower is a Pennsylvanian, and was a member of Co. F., 207th Pennsylvania Infantry, during the Civil War.
